Microeconomics I: Course Architecture

Administrative and Organizational Aspects: How to Navigate the Course

You will encounter *three* numbering systems: lecture *parts*, *textbook* chapters, and *workbook* chapters. This table is your map:

Topic	Part	TB Ch.	WB Ch.
Basic Principles	1.1	1	1
Gains from Trade	1.2	2	2
Supply and Demand	2.1	3, 4, 5, 17.5	3, 4, 5, 16
Externalities and the Limits of Markets	2.2	6	6
Costs & Perfect Competition	3.1	12, 13	12, 13
Monopolistic Markets	3.2	14	14
Principles of Game Theory	3.3	9	9
Oligopolistic Markets	3.4	15	15

Note that the chapter numbers are *not* sequential (e.g., we jump from Chapters 12–14 back to Chapter 9): we follow a didactic path through the book, not its page order.
